Many people forget (or don't even know) that the 1978 cinematic classic "Grease" has a sequel, but it does, and it's *amazing*. Released in 1982, it follows Sandy's Australian cousin Michael as he moves to America and attends Rydell High after the original crew graduated. Sure, that plot point is kinda weak, and much of the original cast and storylines didn't return, but the movie is a gem on its own for so many reasons. Here's why "Grease 2" is a cinematic treasure, and why you should watch it immediately.

The T-Birds are so much cooler

Yeah, Danny Zuko and Kenickie were alright. But these guys are so much more badass.

The Pink Ladies are cooler, too

Michelle Pfeiffer plays the head Pink Lady, Stephanie Zinone

And she's a complete badass, too.

In fact, Stephanie is a total feminist icon

No weeping willows here (looking at you, Rizzo!)

Sure, Michael starts off as a goody two-shoes

But he ends up becoming a 'cool rider' in the end

I'm sorry, Danny who?

And, unlike most movies, the guy changes for the girl

Same.

Frenchie is still killin' it

Who needs beauty school anyway?

The jokes are hilarious

In fact, the entire soundtrack is flawless — there's this:
